Disruption & innovation are constant in healthcare.

Healthcare has never been static – disruption and innovation are constants. The continual challenges and changes demand industry leaders exchange best practices and ideas to improve care, enhance operational efficiency and address financial challenges.

Regardless of the changing climate, Becker’s Healthcare is committed to facilitating these conversations. You will surely remember this conference with celebrity keynotes and over 250 speakers from prominent hospitals and health systems like UCLA Health, Providence, Geisinger and Prisma Health in attendance. They’ll discuss topics such as consumerism, the nursing workforce, value-based care, telehealth, physician burnout, payers, health equity and pharmacy costs. You will get a glimpse of the C-suite discussions happening at health systems across the country and leave with clear action items to improve your organization.

HEALTH & SAFETY

The safety, health and well-being of our speakers, sponsors, attendees, and employees remains our top priority at Becker’s Healthcare. We know there are still a lot of uncertainties surrounding the event landscape, and Becker’s will clearly communicate any specific safety protocols and procedures to all attendees prior to the event.
